COVID -19 PROCUREMENT THROUGH KARUNYA COMMUNITY PHARMACIES

1) COVID 19 pandemic, in its 1st Phase up to 5th March 2020, reported 03 cases from various parts of Kerala. The second wave of COVID 19 pandemic in the State from March 6th 2020 came with heavy case load. State of Kerala had already taken extensive steps for containment & mitigation which shall slow the further spread of the virus, reduce the anticipated surge in health care use, and provide patients with the right level of care to maximize the likelihood. The department is also in the preparatory stage to meet the worst case scenario by equipping the Hospitals with the entire Critical care infrastructure to meet any type of exigencies. Kerala Medical Services Corporation (KMSCL) which was established in 2007 as a central procurement agency for distribution and usage of medicines and medical items for the State of Kerala was entrusted with the task of mobilizing the personal protective kits, N95 mask, Triple layer masks & other commodities for the effective surveillance & active case management. COVID 19 pandemic, in its 1st Phase up to 5th March 2020, reported 03 cases from various parts of Kerala. The second wave of COVID 19 pandemic in the State from March 6th 2020 came with heavy case load. As per the technical review available globally, experts at the ISMR said there were four stages of the disease.

2) Due to surge in immediate demand there was no time to call for tenders and hence the Corporation proceeded through Karunya Community Pharmacy (KCP), the commercial wing of KMSCL. KCP is permitted by Government vide GO (Ms) no 186/2012/H&FWD Dated 19-5-2012 to procure medicines and other supplies through negotiations. KCP had stock of these items as part of its normal stock for sale through the various outlets located throughout the State. To meet emergency requirements warranted due to spread of the corona virus, the KCP purchased these items through their regular suppliers at the already negotiated prices and distributed them to the healthcare institutions. Immediate supply of these implements was achieved through available stock in KCP and through purchase orders placed with the regular suppliers of KCP by negotiations.

3) The demand of PPE kits, N 95 mask and 3 Layer masks are not matching with the current procurement and the urgency of N 95 mask was increased, we have to find more vendors explored through the different means, subsequently e mail offer received from M/s Vimal Fire controls Pvt Ltd dated 28.03.2020 with the information availability of N 95 mask, was discussed with GM and FM. After the detailed negotiation through telephone M/s Vimal Fire controls Pvt Ltd the rock bottom price @ Rs. 198+5 % GST per unit of N 95 mask may be accepted.

4) The demand for N95 masks is increasing day by day since there is heavy case load in the health care of the nation. The average utilization of the N95 masks among the Govt hospitals are in the range of 4000/day. Moreover the private hospitals are also demanding the N95 masks. The use of N95 is essential for the current suppliers of the government are not in a position to supply additional volumes due to supply chain disruptions. Active market analysis for finding more vendors done through portals. The recent suppliers come forward for the dropping of PPE kits also started the difficulties in getting N95 masks and hence offered PPE kits with 3 layers large masks. The sample sent for quality confirmation is of PPE kits with CE certification, hence confirmed. The rates offered by one of the suppliers are ranging from 165 to 250/- per unit. Considering the heavy demand of the product, global supply chain disruptions and the severe material shortage, the offered price with CE certification can be accepted. The new bottom price to be accepted
