The scheme is going to end on March 23rd and it will be extremely difficult if we are not paying atleast part of money as this will deny them CFA also. Such a prestigious project will be closed. Firstly ask for extra allotment immediatelt to govt for the AS approved based on actual expenditure that can be made. Then only reimbursement can be made.

These bills can be paid from ANERT's retention fund if there is no liability immediately and then can be reimbursed at a later date. Modify DFA accordingly and resubmit.

- i. We are getting requests from multiple agencies for proposals for Solarisation of households in Green Income Scheme utilizing funds under Corporate Environmental Responsibility (CER). For the same, they require the actual beneficiary list on immediate basis, and most of the requests are on demographic basis, whereas we are not having the same.
- ii. Normally, requests are sent to Life Mission HQ, which in turn are forwarded to their district offices / LSGs and once obtained are forwarded to ANERT and this usually take more than a week. The prospective funding which could be obtained under CER are all timeline based and they need to get approval from the SEIAA / SEAC to start their projects and if the proposals are not provided in time, they may provide proposals in some other category.
- iii. In this context, we may write to CEO, Life Mission to nominate a nodal officer for timely sharing the requisite details and also request to share the consolidated list of completed houses under the mission for ready reference.
- iv. Draft letter as mentioned in the above note may be approved.

The scheme is going to end on March 23rd and it will be extremely difficult if we are not paying atleast part of money as this will deny them CFA also. Such a prestigious project will be closed. Firstly ask for extra allotment immediatelt to govt for the AS approved based on actual expenditure that can be made. Then only reimbursement can be made.

These bills can be paid from ANERT's retention fund if there is no liability immediately and then can be reimbursed at a later date. Modify DFA accordingly and resubmit.

**Note # 446**

- i. We are getting requests from multiple agencies for proposals for Solarisation of households in Green Income Scheme utilizing funds under Corporate Environmental Responsibility (CER). For the same, they require the actual beneficiary list on immediate basis, and most of the requests are on demographic basis, whereas we are not having the same.
- ii. Normally, requests are sent to Life Mission HQ, which in turn are forwarded to their district offices / LSGs and once obtained are forwarded to ANERT and this usually take more than a week. The prospective funding which could be obtained under CER are all timeline based and they need to get approval from the SEIAA / SEAC to start their projects and if the proposals are not provided in time, they may provide proposals in some other category.
- iii. In this context, we may write to CEO, Life Mission to nominate a nodal officer for timely sharing the requisite details and also request to share the consolidated list of completed houses under the mission for ready reference.
- iv. Draft letter as mentioned in the above note may be approved.
